

Letter of Participation — A Century of Foucault: 2026 Deakin University Philosophy Graduate Symposium

This letter confirms that Cristian González Arévalo participated in A Century of Foucault, the 2026 Deakin University Philosophy Graduate Symposium, held on Tuesday, 8 September 2026.

As part of the symposium, Cristian presented a paper titled "Voluntary Submission and the Aesthetics of Form: Foucault, Robbe-Grillet, and the Creative Reconfiguration of Power." His talk offered a thoughtful engagement with Foucault's theories of power in dialogue with Robbe-Grillet's literary aesthetics, and was a valuable contribution to the symposium's discussion of Foucault's continuing influence a century later.

On behalf of the organising committee, I would like to thank Cristian for his participation and for the quality of his presentation, which was well received by attendees and enriched the symposium as a whole.
